APPENDIX 1: Decision considerations

The Executive Lead must take all reasonable steps to ensure that the decision process is fair and there is no bias or perception of bias in approving conferences, accepting funding from External Contributors, or when providing funding/resources for internal or external conferences.

IH must be perceived to be fair and impartial, immune from pressure either by the External Contributors, Affiliated Organizations or IH staff.

Considerations:

- The announced purpose of the conference is educational or instructional. Conference Plenary/Sessions address the educational needs of IH (organizational) and or the individual unit/department staff.
- More than half of the time is scheduled for a planned, organized exchange of information between presenters and audience which meets the definition of learning and development (evidence-based presentations).
- The content of the conference is pertinent to improving individual and/or organizational performance.
- Organizers and individual presenters have disclosed any real, potential or perceived conflict of interest/financial affiliations with contributors to the conference.
- Organizers and individual presenters may acknowledge the financial or other aid received, but they must not identify the products of the company(ies) that fund the presentation.
- Promotional displays should not be influenced by industry sponsorship of the activity. Promotional displays should not be in the same room as the educational activity.
- Although IH Conferences strive not to generate surplus funds, any surplus funds will be in the form of an unrestricted educational grant payable to IH.
- Subsidies should not be accepted outside of modest meals or social events that are held as part of a conference or meeting. Hospitality and other arrangements should not be subsidized by sponsors for personal guests of attendees or faculty, including spouses or family members.
- Honaria (lost income recovery) and direct cost reimbursement for travel, lodging and meal expenses must be reasonable. Pre-conference negotiation should be considered.
